

## How we use your information

Medical confidentiality is the cornerstone of trust between doctor and patient and we keep your records secure and confidential. For your direct care either from the practice or within the NHS hospital service we imply your consent to pass on relevant clinical information to other professionals involved in your direct care.

Only when there is a legal basis for the transfer of data we may pass limited and relevant information to other NHS organisations to improve the efficient management of the NHS, or to aid medical research.

If you wish to object to the use of your data for these secondary uses please speak to: **Felicia Gaylor**
